

## End of the unit

A pupil working at age-related expectations should be able to meet the success criteria for each lesson by the end of the unit. However, it should also be noted that some pupils may take longer to grasp certain skills and concepts and therefore may achieve a success criterion from a lesson at a later date.

At the end of a unit, you may wish to use the observations that you have made across each of the lessons to determine an overall snapshot of a pupil's understanding of the content from that unit.

## Adapting for your setting

As there are no nationally agreed levels of assessment, the assessment materials provided are designed to be used and adapted by schools in a way that best suits their needs. The summative assessment materials will inform teacher judgements around what a pupil has understood in each computing unit, and could feed into a school's assessment process, to align with their approach to assessment in other foundation subjects.
